

## The Artist Glen River

“The eye and the mind are partners in Seeing. My art works are dedicated to refining Seeing and creating specific visions. The visions are either portraits (faithful to the eye) or constructions (faithful to the mind). These partners cross-pollinate sharing ways of describing the vision and framing the perspective.”

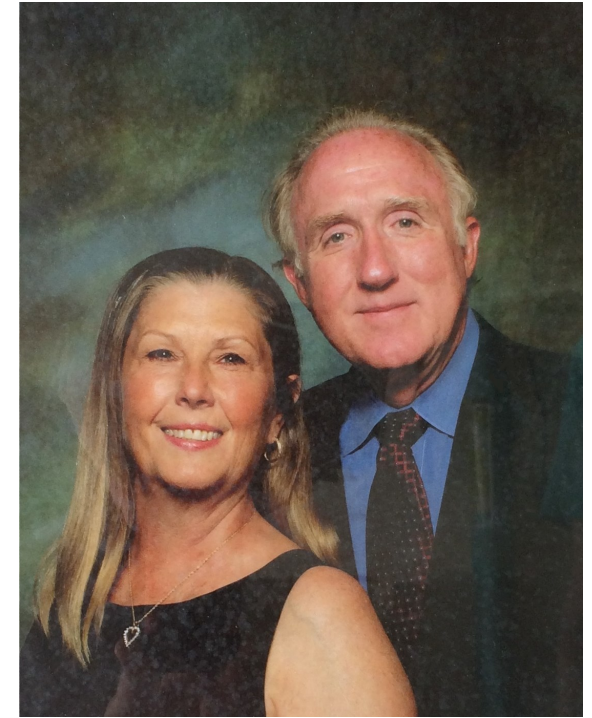

River has been an artist since childhood. Extensive education, travel, and an extraordinary talent launched his voyage of discovery.

## The Collection

The 80 works of art including major paintings, drawings, and prints covering a time-span from 1958 to 2014. It is the largest single collection of Rivers art. Notable throughout the time-line is the consistent search including representational and abstract perspectives. Periods can be seen in a relationship to the incredibly large body of work the artist has produced.

## The Collectors

Carla & Joe Hardy

Carla started the collection in the 1960's and continued consistent additions over the years. Joe's choices have continued to broaden the works included. Other family members exercise borrowing rights. Part of the collection circulates to occasional outside exhibitions as well. The size of the collection allows for the Hardys to enjoy a variety of viewing experience within their own home. Their collection is represented at the artist's website. A PDF catalog is available, and they plan a website of their own in the near future. Occasional sales of works and new additions keep the collection an active endeavor.
